

Ariel™

Ariel Regulatory Content — RegsLink®

Ariel Regional Regulatory Coverage is a powerful, comprehensive collection of regulatory content enabling manufacturers and distributors to save money, improve their level of compliance, reduce risk and protect their corporate brand.

OVERVIEW

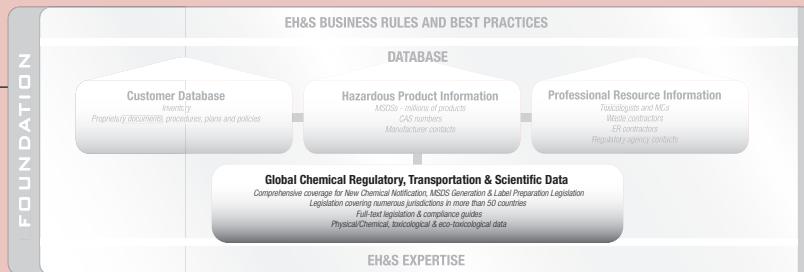

The Ariel RegsLink® database offers immediate access to key Code of Federal Regulations (CFR's) Titles 21, 29, 40 and 49, as well as regulatory citations for all 50 states plus Washington, DC and Puerto Rico. Ariel RegsLink enables table of contents searching to quickly pinpoint the specific regulatory information you are seeking. Additionally, RegsLink provides the ability

to search these CFR's and state regulations with a simple phrase or single word queries.

All Ariel content is supported and enhanced by Ariel Generics, which is information that helps identify regulatory requirements for chemicals that are not specifically named in the regulations, but are nonetheless regulated as members of over 4,500 classes of chemical substances.

ARIEL FOUNDATION

The foundational core of Ariel products is the massive aggregation of global regulatory content that is delivered or accessed by the products and services within the Ariel EH&S Decision Support family. These products provide up-to-date, comprehensive global regulatory information containing thousands of searchable chemical lists, full-text regulations and compliance guides covering more than 50 countries. Access to this collection of global regulatory content provides unprecedented support for identifying, monitoring and complying with

complex and ever changing EH&S requirements. 3E's Ariel Global Research Team consists of international, multi-lingual experienced product stewards, industrial hygienists, attorneys, chemists, chemical engineers, MSDS experts and EH&S systems consultants, all of whom are dedicated to providing the most up-to-date information available.

EH&S SOLUTIONS

At 3E Company, we understand the business and the burden of EH&S information and compliance management. We have combined an experienced and dedicated staff of EH&S professionals with the power of a rich database of global regulatory information, chemical lists, and millions of MSDSs. The result is a set of EH&S business rules and best practices that are unparalleled in the industry.

3E delivers all its services via leading edge, reliable technology and through 3E's Ariel HazMat Mission Control Center, which is accessible 24-7-365. 3E's services have proven to deliver cost savings, improve process efficiencies, reduce risk and liability and provide a competitive advantage.
