

Global Incident Response Hotline

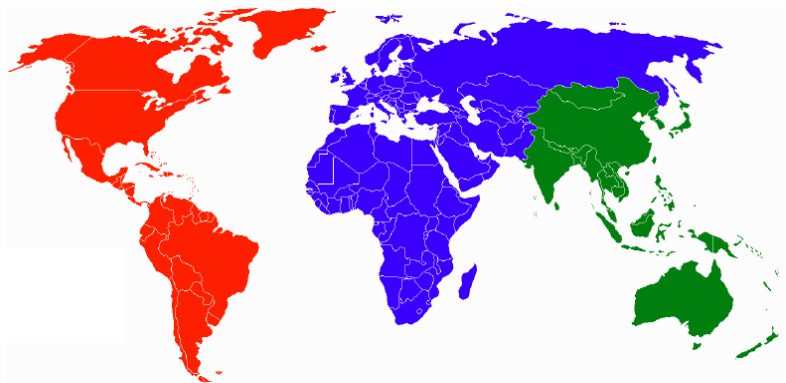

A vital resource for manufacturers and distributors for round-the-clock emergency assistance, across the globe

In today's environment supporting global chemical distribution needs while fulfilling regulatory requirements is a significant challenge. Finding a partner that can support you anywhere in the world can be a bigger one. 3E's Global Incident Response Hotline Service provides a single point of contact for companies who need a 24-7-365 emergency number to support global distribution of hazardous materials.

3E will provide designated telephone number(s), accessible worldwide that are manned 24-7-365 by a live hazardous materials specialists in the event of hazardous materials incidents. 3E's global emergency number can be used worldwide for (M)SDSs (Material Safety Data Sheets), transportation documents, and other hazard communication documents such as product labels and Transport Emergency Cards (Tremcards).

All calls are routed directly into 3E's EH&S Mission Control Center which strategically supports more than 150 languages worldwide. 3E's Specialists are available around the clock to provide callers with the required emergency and incident response information, in accordance with customer-provided protocols, Including:

- (M)SDS and product safety information
- Immediate access to chemical poison and exposure specialists in the event of a chemical exposure
- Environmental health and safety guidance, based on the MSDS
- Caller referral information and notification of incidents to designated Client contacts.

Dramatically simplify your processes and significantly reduce risk by using 3E Company as your single resource for immediate access to EH&S information and resources anywhere in the world, 24 hours a day, 7 days a week, 365 days a year.

Trusted Global Provider of Chemical,
Regulatory & Compliance Information Services

Full Chemical Lifecycle Management

3E Company's comprehensive suite of data products and information services enable improved compliance with global Environmental Health & Safety (EH&S) requirements related to the safe manufacturing, distribution, transportation, usage and disposal of chemicals and hazardous products. This full chemical lifecycle approach enables in-house EH&S staff to reduce cost, risk and liability while improving process efficiencies and focusing on strategic EH&S goals.

Whether you are a producer, manufacturer or distributor, or a company whose employees handle hazardous materials, 3E can tailor a program specific to the EH&S compliance information and management needs of your organization.

EH&S Challenges

With the spotlight shining brightly on EH&S compliance, companies are challenged with finding effective ways to address the complexities and intricacies of EH&S compliance management. Not only do these challenges stem from a constantly-changing regulatory landscape, but also from a scarcity of newcomers to the EH&S field, and pressure on EH&S departments to manage increased responsibility with fewer resources. Addressing these issues requires broad and deep domain expertise—expertise that doesn't always exist within the company. And if it does, this expertise is probably best utilized by driving the company's overall compliance strategy, not bogged down with paperwork or the administrative burdens associated with maintaining compliance.

EH&S Solutions

At 3E Company, we understand the business and the burden of EH&S information and compliance management. 3E Company is a comprehensive, one-stop solution for content, tools and services for companies that want to take effective leadership and control of their product stewardship and EH&S compliance activities. 3E's products and services help companies make the transition from simply managing for compliance, to cutting-edge product stewardship practices that deliver tangible and sustainable business results.
